NEW R&D Product: *One-Piece Face Shield*

- One-piece solution
- No pre-assembly
- Simple strap closure
- Material: SuperClear PET (anti-fog)
- 100% Virgin
- 100% **Recyclable**
- Optimized design for shipping and storage
- Comfortable distance from face (*accommodates glasses/goggles*)

Protective Suits (*Hazmat Suits*)

Hazmat suits come in an assortment of shapes and sizes, some of which are higher up on the anti-disaster scale than others. But essentially, hazmat suits act as a barrier, formed by plastic, fabric and rubber, along with an independent source of oxygen. Simpler suits can be slipped on to protect against, say, some kind of dangerous liquid, whereas more advanced variations can become completely airtight to defend against airborne contaminants and toxic chemicals — which is what we'd want in the current coronavirus scenario.

Price on Demand

Other PPE delivered

Min MOQ 100,000

- Latex Gloves
- Mop Caps
- Goggles

Logistics, Production & Certification

Face shield

Box quantity 200 pcs
